HOMES FOR ALL.

THE AMERICAN EMIGRANT ADD AND HOMESTEAD

COMPANY, having its headquarters in the City of New
York, has been organized for the sole and definite purpose
of collecting information from all parts of the country
wherein desirable lands may be had at low prices, and commending those lands to the test that the country

The cou mending those lands to the attention and store prices, and com-may be induced to purchase or improve them. It has been silently perfecting its arrangements and correspondence for more than a year past, until it is now ready to offer to set-liers a range for school or the set of the set. tiers a range for selection embracing more than One Million Acres of cheap wild lands, with some improved farms, main-ly in the States of Virylnia, Pennsylvania, Tennessee and Missouri; and it will soon sxteed its operations into other States.

Missouri; and it will soon system its operations into other States.

To immigrants from Europe, to the energetic young men of our compactly settled States and sections, to the hives of mechanics and laborers who throng our cities and live in constant and reasonable dread that panic or pestilence, war, revulsion, or some alteration in the channels of trade, may, at any nioment, dentive them of employment and their families of bread, we say, resolve now, while you may, to seek a home where such perils are unknown.

We mean to sell lands, as well as negotiate for purchasers with those who have large tracts for sale, in every part of the Union; but our attention is more specially directed to the neighboring States—Virginia, Kentucky, Tennessee, and Missourt. Vigarska especially proflers at this time remarkable inducements to immigrants. Her climate is temperate and grenial—the Peach, the Apple, the Pear, the Grape, alike thrive in it—it is far better and more desirably Timbered than almost any new State; its navigable rivers and innumerable, available streams, water-power, and profusion of the most valuable minerals—Coal, Iron, Salt, Copper, &c.—are unsurpassed; the State has expended large sams in constructing Oanais and Ruirone's across its entire breadth, which place almost every county within a few hours' ride either of its scaports or of the great inland cities of Cincinnati, Pittsburgh, Wheeling, Louisville, &c.; yet fertile, inviting land, whether improved or new, is far cheaper this day in the Mother of States, than it is in Minnesota or Oregon. No where else on earth can lands filled with accessible Coal or Iron Ore, covered with choice Timber, and excellent alike for Grain and Grass, Fruit and Roots, be obtained so cheaply as in Old Virxinia; while to men of considerable means we can sell good farms almost within sight of Washington City for less than the fair cost of the improvements.

The TABLE LANDS of EAST TENNESSEE present some

The TABLE LANDS of EAST TENNESSEE present some of the most inviting fields for industry and enterprise on this Continent. The climate is salubrious and healthful. Its soil is adapted to all Agricultural pursuits. Its unimproved Lands ase covered with useful Timber, or present natural openings, and Meadows producing nutrilious Grass. The farmer can have his products on shipboard in 30 hours and can have his Groceries, Dry Goods, etc., at home, as cheap as any one in New England. Yet, we can sell him good Lands, with perfect titles at from one to three dollars per acre. A word as to the stude objection which has kept these lands so long uncultivated, and which now keeps them in market at a bare fraction of their intrinsic value—that of Slavery. This Campany has only to deal with any institution as a subsisting fact, over whose existence or character it has no control. But we say in all confidence to intending settlers. Slavery in Virginia need not and should not serve longer as a hindrance to settlement on your part. That The TABLE LANDS of EAST TENNESSEE present some it has no control. But we say in all confidence to intending settlers, Slavery in Virginia need not and should not serve longer as a hindrance to settlement on your part. That grand discovery of our age, Concerned Inmogration; practically disposes of it, so far az you are concerned. Let hends of families, including farmers, michanies, millers, ke., take counsel togetheer and resolve to seek new and more cligible homes in company. Let them, clubbing their means, send two of their lumber to look at such lands as we are prepared to sell them. Let these delegates, after a sufficient scruliny, buy from five to twenty thousand acres in a body, embracing all the good points they require, then let them survey the whole into farms and lots of convenientsize, and put these up at auction to the highest bidder, whether a member of the company or not. Each member will of course be entitled to a return in land or money of the sum previously contributed by him to the company's funds, and to his proportion of any profit realized from the transaction. Thus, the Company will form a sort of spontaneous township, with its roads, bridges, stores, schools, church, &c., substantially after the New England pattern—Such a location may easily be made—such already, in fact, exists in every county of Virginia above tide-water; and into such a one, Siavery will have neither pretextnor desire to enter. The city of Wheeling, the Quaker portion of Loudoun County, not to speak of new experiments, fairly exemplify the law we here indicate. Thus, before a stendy and copious influx of Free-Labor immigration, Slavery quadrupled by the single act of settlement.

Young men of the Free States I a florious career onens

heart-barning, and the settlers will find their property quadrupled by the single act of settlement.

Young men of the Free States! a glorious career onens before you. We profier you cheap land, ample timber, a mild and healthful climate, absolute lumunity from even the dread of savage incursion and depredation, adaptation to all the grains, grasses and fruits of the temperate zore, with ready access to ample and remunerative markets at all seasons. This, day, more than half the arable land in Virginia has never been turned by a plow, while inuch of the good lands once generously productive, is now but meacerly so. Good treatment will readily and cheaply restore them to their pristine fertility. No stronger inducements to industry, no nobler theatre for exertion, sproffered anywhere on earth.

ere on earth. Call and see our maps, descriptions, surveys, etc., or write to us (enclosing postage stamps, of course), and your in-quiries shall be answered as far as practicable. SOLE IMPORTERS, No. 338 BROADWAY, N. Y.

This DELICIOUS TONIC especially designed for the use of the MEDICAL PROFESSION and the FAMILY, possesses those intrinsic medicinal properties (Tonic and Diuretic) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as beverages, under the titles, " Aromatic,"-" Cordial,"-" Medicated, etc., has become so common, that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation - founded upon cighty years of experience - abundantly via licates our claim to public confidence.

HUMPHREYS',

Stand confessedly at the head of remedial means for the use of the people. They are allke removed from the poisonous, dangarous and repulsive doses of quackery, or old school practice, the inconvenience of water-cure, or the intricate and perplexing obscurities of the usual Homecopathic books and medicines. Consisting of simple specifics for the various diseases to which they are related; put up in the form of simple sugar pellets; and prepared of ingredients neither dangerous or disgusting, they form at one-the ready source of the parent or nurse, and are the comfort of the complaining or invalid.

They possess these positive advantages, which were never before combined in any popular remedies. They are narray, you always know what to take, and how to take it. They are conveximely you can give the proper Sugar Pill at a moment's warning, without hesitation or delay. They are spriorsyr; in thousands of cases disease is arrested at once, and the inte cures at the moment what the pound could not afterwards have relieved. SPECIFIC HOMOEOPATRIC REMEDIES

In Acors Disasses—such as Pevers, Inflammations, Diar rheas, Lysentery, Croup, Rheumatism, and such eruptive diseases as Scarlet Pever, Measels and Erysipelas—the advantage of giving the proper remedies promptly is obvious, and in all such cases the specifics act like a charm. The entire disease is often arrested at once, and in all cases the violence of the attack is moderated, the disease shortened and rendered less dangerous. Even should a physician afterwards have to be called, he will take the case at decided advantage from the previous treatment.

Coughs and Couns, which are of such frequent occurrence, and which so often tay the foundation of deceased lines, broughtits and consumption, may all be at once cured by the Fever and Gough Pills.

In Curaoxic Dissays, such as Dyspepsia, Weak Stomach, Constipation, Liver Complaint, Piles, Female Debility and Irregularities, old Headaches, Sore or Weak Eyes, Catarrh, Sait Rheum, and other old cruptions, the case has specifics whose proper application will afford a cure in almost every instance. DYSPERSIA.

A young lady of 26 had been troubled with indigestion for several months, so as to render great care necessary in the selection of her food. After enting, the stomach became neitl, food rising in her mouth with water, and an unpleasant, heavy, load-like servationin her stomach, continuing for one hours, frequent headaches, bowels constinuted and a depressed mental condition. See commenced their give Dyspensia Pills, one morning and night, and in less than a week almost every symptom of her disease had vanished, and she felt like a new being.

A gentleman somewhat advanced in years, strong, robust constitution, had lately been a good deal affected with indigestion, weak stomach, conted tongue, bad taste in the mouth and attended with a peculiar vertigo and whirting in the

A gentleman of fifty years, well and favorably known at Cethi, Belaware county, New-York, had been a marty to the piles for twenty years. Sometimes from excessive hemorrhage, pain and suffering, he was reduced to the verge of the grave. For years he had dragged out a miserable evistence, a confirmed invalid, disqualified for any business, and life almost a burden. It is needless to add that he had tried all sorts of renedles, from all sorts of doctors, to little purpose. He consulted me two years ago, and I recommended our Pile Specific, with, occasionally, a Dyspepia Pill.—From this he began to improve, and since has never had a serious turn of piles. From the first month up to a year past he had occassionally symptoms of his old compilaint, but a few doves of the Pile Pills would disperselt all, and for more than a year past he has been entirely well of the piles. more than a year past he has been entirely well of the piles.
